

Integrity Soils

www.integritysoils.co.nz

Science in Agriculture - Dr Arden Andersen

Technical, but good in-depth reference book which covers most aspects.

Foundations of Natural Farming – Dr Harold Willis

Great starting place, covers a broad range of the different aspects

Advancing Biological Farming – Gary Zimmer

More applied and a good practical book for cover crops and farming

Fertility Pastures – Newman Turner (all of his books are good!)

Older, but not dated, covers good management and growing quality pastures.

The Call of the Reed Warbler – Charlie Massy

A history and overview of the growth of Regenerative Ag in Australia

Teaming with Microbes (or Nutrients) - Jeff Lowenfel

When Weeds talk – Jay McCaman – *Graph of weed indicators*

From Dirt to Soil – Gabe Brown – *personal journey and practical how to on cover crops*

Visual Soil Assessment downloadable booklets: put in google search “VSA FAO”

Check out some of Nicole’s YouTube clips

Audio books and books from www.acresusa.com

The “Digging Deeper” DVD is available for \$30 NZD plus P&P order online
